

NEW Sleep BraiNet® Template

Individually packaged color-coded template with 9 (AASM recommended) electrode placement locations - plus ground and reference. Designed to aid in rapid, accurate EEG set-up in the sleep lab or in the patient's home. 3 Sizes available to fit pediatric to large adult.

Item #	Description	Size	Head Circumference
116	Sleep BraiNet® Template	Small	49-54cm head
117	Sleep BraiNet® Template	Medium	54-57cm head
118	Sleep BraiNet® Template	Large	57-62cm head

Original BraiNet® Template: Adult/Child

Individually packaged color-coded template with 14 scalp electrode placement locations, designed to aid in rapid, accurate EEG set-up. There are 2 sizes available: LARGE and SMALL.

Item #	Description	Size	Head Circumference
100	BraiNet® Template	Small	46-54cm head
101	BraiNet® Template	Large	54-62cm head

Baby BraiNet® Template: Neonatal

Individually packaged color-coded template with 14 scalp electrode placement locations, designed to aid in rapid, accurate EEG set-up in the neonatal ICU. There are 5 sizes to accommodate the change in neonatal head size.

Item #	Description	Size	Head Circumference
111	Baby BraiNet® Template	BBN-1	25 - 29cm
112	Baby BraiNet® Template	BBN-2	29 - 33cm
113	Baby BraiNet® Template	BBN-3	33 - 37cm
114	Baby BraiNet® Template	BBN-4	37 - 41cm
115	Baby BraiNet® Template	BBN-5	41 - 45cm

10/20 BraiNet® Template: Adult/Child/Infant

Individually packaged color-coded template with 21 scalp electrode placement locations, designed to aid in rapid, accurate placement of full 10/20 system of scalp electrode placement. Available in 4 sizes.

Item #	Description	Size	Head Circumference
106	10/20 BraiNet® Template	X-Small	45 - 49cm
107	10/20 BraiNet® Template	Small	49 - 54cm
108	10/20 BraiNet® Template	Medium	54 - 57cm
109	10/20 BraiNet® Template	Large	57 - 62cm

Original BraiNet® and Baby BraiNet® Electrode Packs

Contains 16 disposable EEG electrodes, color-coded to match the Original and Baby BraiNet® Template. Packaged in 4 convenient packs for ease of use: LEFT, RIGHT, REF, EKG

Item #	Description	Electrode Type
600	Original/Baby BraiNet® Electrode Pack	Disks
700	Original/Baby BraiNet® Electrode Pack	Needles (subdermal/sterile)

10/20 BraiNet® and Sleep BraiNet® Electrode Packs

Disposable, color-coded to match the 10/20 BraiNet® and Sleep BraiNet® Templates. Packaged in 4 convenient packs for ease of use: LEFT, CENTRAL, RIGHT, EXTRA
 10/20 Pack = 24 electrodes - includes electrodes for A1/A2, EKG, REF
 Sleep Pack = 18 electrodes - includes electrodes for M1/M2, E1/E2 and REF

Item #	Description	Electrode Type
601	10/20 BraiNet® Electrode Pack	Disks
701	10/20 BraiNet® Electrode Pack	Needles (subdermal/sterile)
800	Sleep BraiNet® Electrode Pack	Disks

BraiNet® DVDs

Continuous EEG in the ICU - a 30 minute DVD presented by Kenneth Jordan, MD, addresses the clinical benefits of cEEG.

BraiNet® Template Set Up in the ICU, is an 8 minute tutorial DVD presented by registered EEG technologist, Anita Schneider, illustrates the set-up procedure using the BraiNet® template and electrodes in an actual ICU setting.

Item #	Description
400	DVD - BraiNet® Template Set Up in the ICU
410	DVD - Continuous EEG in the ICU

BraiNet® Jack box Overlay

Designed to customize your EEG jack box for the BraiNet® Color-Coded methodology. Adhesive stick-on squares fit easily around jack box ports.

Item #	Description	BraiNet® Model
500	Jack box Overlay	Original/Baby BraiNet®
505	Jack box Overlay	10/20 BraiNet®
506	Jack box Overlay	Sleep BraiNet®
